Initiative Goal Clarification and Setting
Why Goals?

Three Possible Rationales...

1. When we set smart goals the probability of achieving desired outcomes increase significantly.
2. Setting goals frames what we are trying to accomplish allowing us to be more focused increasing the chances of success.
3. Exploring goals allows us to consider the possibilities and arrive at an optimal vision of what we hope to accomplish with an opportunity.

Framing Goals

We recommend that we set goals by desired “outcomes” or “impacts” and then “strategy” goals.

Outcome or Impact Goals. Outcome or impact goals are those that capture our longer-term and bigger vision of what we hope will change through our work.

Strategy Goals. Strategy goals are those that will allow us to make progress towards our outcome goals.

October Session Goals

Keep wealth in rural Maryland.
Engage foundations in the initiative.
Engage community foundations, private foundation and non-profits.
Support enhanced estate planning.
Provide best practices.
Help rural Maryland minority farmers.
Provide gap financing.

Other items I missed?
**Why is this Important?**

1. Thriving communities need continuous sources of capital that can support desired and necessary community economic development work.
2. Often there is a need for subsidized or gap capital to make community economic development projects and programs viable.
3. Traditional sources of community economic development gap capital – government – is increasingly challenged.
4. Rural Maryland has massive under-developed philanthropic potential that could capitalize community focused funds and endowments.
5. Community philanthropy is regionally and locally rooted, controlled, sustainable and predictable.

**Possible Outcome or Impact Goals**

1. Establish community centered philanthropic development as a top priority for rural Maryland.
2. Commit to realizing a 5% legacy giving goal based on the 10-year TOW opportunity creating by 2030 $3.2 billion in community endowments across rural Maryland.
3. Focus philanthropic resources on strategic grantmaking and impact investing strengthening rural communities across Maryland.

**Possible Strategy Goals**

1. Map potential community philanthropy stakeholders (e.g., foundations, non-profits & community economic development stakeholders).
2. Engage willing stakeholders in the development of a robust and sustainable community philanthropy initiative.
3. Make sure very rural community in Maryland has foundation services.
4. Evolve development visions that will catalyze donor interest and giving.
5. Enhance donor development strategies and services.
Next Steps

Do Your Session 1 Homework – Share by January 31st.
Reflect on our session and propose your preferred amendments to our “outcome” and “strategy” goals for this initiative.
Think of others who should be invited to be part of this initiative.

Do Your Session 2 Preparation – Share by February 9th.
Brainstorm and share existing community philanthropy initiatives you are aware of and possible ideas for how we can advance community philanthropy in rural Maryland.

Next Session – Session 2 – Strategy Options – February 16th
