#### **Legislative findings**

(b) The General Assembly finds that:

(1) many rural communities in the State face a host of difficult challenges relating to persistent unemployment and poverty, changing technological and economic conditions, an aging population and an out-migration of youth, inadequate access to quality housing, health care and other services, and deteriorating or inadequate transportation, communications, sanitation, and economic development infrastructure;

(2) Maryland's agricultural and resource-based industries continue to underpin the local economies of rural communities but are increasingly under threat from national and international market competition, urban encroachment and land development pressure, and environmental and regulatory influences;

(3) local governments, regional organizations, educational institutions, and private sector service providers have been unable to meet all the economic development, community development, health care, and human services needs of Maryland residents in the rural counties and municipal corporations because of a lack of adequate available capacity and resources;

(4) the objective of the Rural Maryland Prosperity Investment Fund is to help raise the overall standard of living in rural areas to a level that meets or exceeds statewide benchmark averages by 2030, while preserving the best aspects of a pastoral heritage and rural way of life;

(5) resources provided to the Fund are designed to facilitate significant targeted investments in important economic, health care, and community development programs and promote regional and intergovernmental cooperation;

(6) these investments will also enable local and regional public and nonprofit organizations to leverage additional nonstate financial and human resources to facilitate the realization of sustainable rural development objectives while the program is in effect; and

(7) the Fund will serve the interests of the entire State by:

(i) encouraging the increase of entrepreneurial activity and commerce and a balanced economy in the State;

(ii) relieving conditions of unemployment and underemployment in rural areas;

(iii) assisting in the retention of valuable farm and forest land for productive use by present and future generations;

(iv) promoting intergovernmental cooperation and public sector/private sector partnerships in and between rural and other areas;

(v) enhancing the deployment of housing, transportation, water, wastewater, and broadband communications infrastructure and services in rural areas;

(vi) supporting rural commercial center redevelopment and community revitalization efforts; and

(vii) generally promoting the health, happiness, safety, employment opportunity, and general welfare of the residents of each of the rural counties and municipal corporations of the State.
