

SMADC is a division of the TRI-COUNTY COUNCIL for SOUTHERN MARYLAND

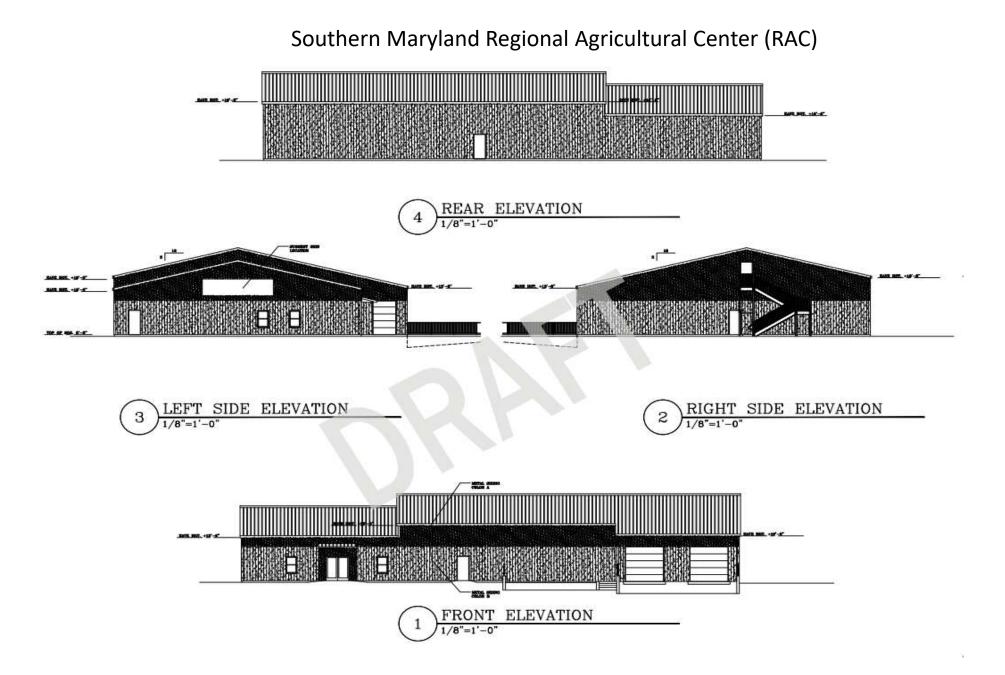

Rebuilding our Region's Food System

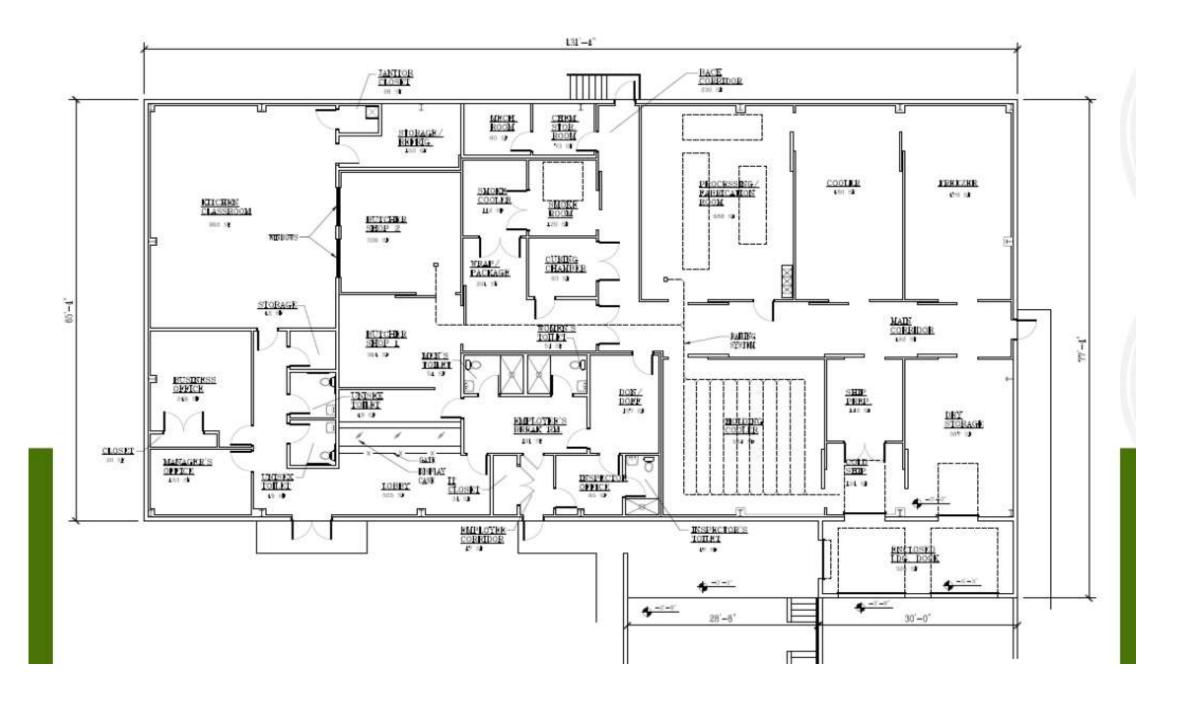

A Southern Maryland Case Study

Anybody interested in solving, rather than profiting from, the problems of food production and distribution will see that in the long run the safest food supply is a local food supply, not a supply that is dependent on a global economy.

Wendell Berry

Business Functions at the RAC

- A Regional Butcher Shop/Cut and Wrap Facility
- A Finer Meats Processing Facility
- A Meat Locker and Cold Storage Facility
- A Warehouse and Distribution Site
- A Commercial Kitchen
- An Instructional Kitchen Classroom
- A Retail Store
- Product Storage Facility

Agricultural Development <u>Is</u> Economic Development

- Local Government has a vital role in supporting local agriculture and a well-managed food chain for the health and well-being of its people and for the stability of its economy.
- Family farms=96% of all United States farms (incomes less than \$350,000). Yet they account for only 19% of agricultural products sold.
- Locally owned processing operations have given way to vertically integrated companies that sell products at lower prices across seasons, and in greater quantities leaving many regions without adequate processing opportunities to compete.
- The COVID-19 pandemic and the resulting supply chain disruptions revealed the challenges of a national food system and depend on production concentrated in a few geographic areas and requires many steps to get from producer to consumer.
- "Regional" and "Local" are not the same.

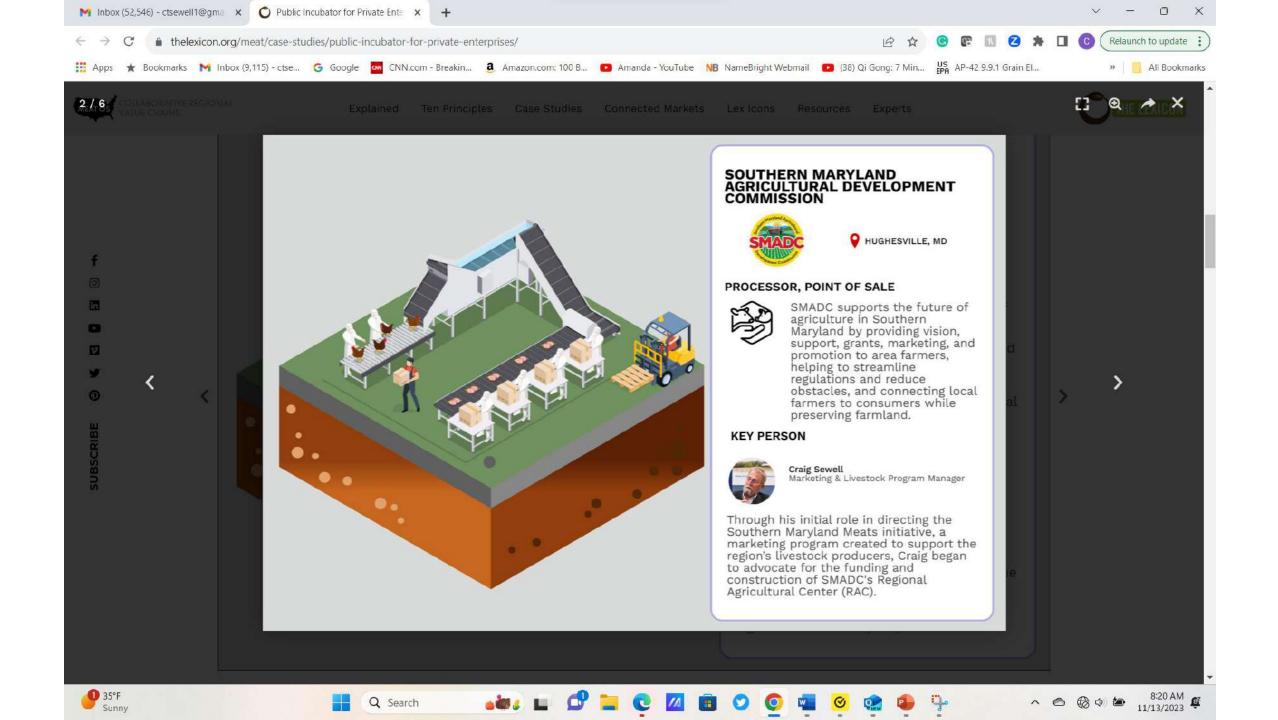

PUBLIC INCUBATOR FOR PRIVATE ENTERPRISES

Agricultural Development Is Economic Development

PUBLIC INCUBATOR FOR PRIVATE ENTERPRISES

Agricultural Development Is Economic Development

Many supply chains are perfectly suited to the needs that the business had 20 years ago.

~Jonathan Byrnes, MIT Professor

The supply chain stuff is really tricky.

~Elon Musk, CEO of Tesla and SpaceX...
